Virtual Edition

ABOUT NIT ROURKELA

Ranked 16th among all the engineering colleges and touted as the second-best NIT in the nation in NIRF 2020.

National Institute of Technology, Rourkela is one of the most coveted destinations for higher studies by future technocrats. NITR also takes pride in being the largest NIT in terms of the campus area.

Established in the year 1961, the institute has a total student strength of around 7000. It fosters a vibrant student community that is always involved and engaged in ways to develop progressive and beneficial technologies for the nation and mankind.

ABOUT ORGANIZERS

DSC NIT Rourkela

Developer Student Clubs(DSC) are a university-based community of students, formed under the initiative of Google Developers to broaden access to developer technologies. DSC NIT Rourkela has been continuously working meticulously to build and maintain a peer-to-peer learning environment via workshops, teaching sessions, courses, etc where the students could gain the necessary skills to become a successful developer.

OpenCode

OpenCode is the official open-source society of NIT Rourkela. Since its inception in 2017, the club has left no stones unturned in justifying the significant meaning of Open source, by providing a platform that allows developers and programmers from around the globe to contribute to projects which belong to their areas of interest, where their skills could be nurtured and help in its fast completion.

ABOUT HACKNITR

The goal of organising HackNITR hackathon has been to grow our local community and giving hackers an unforgettable hacking experience. We aspire to reach out to as many hackers as we can. We especially want to be welcoming to newcomers and help them get involved in an activity to grow their involvement in our community. As hackers ourselves, we very well understand the fear of starting out the hackathon journey. We would like to give our best effort in making this transition as fruitful as possible.

THEME

We believe that creativity and vision have no limits and so do the problems. Hence, we have no restriction on the tracks. Hackers are encouraged to build on any real-life problem solution. Some of the possible themes are

- Combat Climate Change
- Diversity and Inclusion
- Healthcare
- Safety and Accessibility

We are striving to empower school students with a dedicated track for them and beginner friendly sessions and workshops

PREVIOUS HACKATHONS

HACKNITR 1.0

The inaugural season of HackNITR was conducted on 20-22 March 2020 by OpenCode, the open-source community of NIT Rourkela and Developers Student Clubs, an initiative under Google Developers. A hackathon for social good, amidst the situation of crisis arising due to the COVID-19 pandemic, the entire hackathon was conducted completely online to ensure the safety of all. It aims to provide student developers from across the country, a platform to transform their ideas into prototypes and solve real-world problems.

RunIO Hackathon

RunIO Hackathon, sponsored by GitHub, was the first-ever Hackathon to be conducted at the NIT Rourkela during the annual tech-no-management fest— “Innovision”. It was a 24hrs long hackathon themed on “Sustainable Development”, and hence the name — “RunIO” — develop products and services for the long run.

NIT Conclave

This was the first ever hackathon at happened at the NIT Conclave in the past history of almost 10 years. It was an event inviting computer programmers and other enthusiasts to think out of the box and come up with solutions to real-life problems' had participants, constituting participants from NITs across the nation

WHY SPONSOR US?

HackNITR is one of a kind hackathon which endeavors to bring and integrate talent, innovation, and creativity under one roof to build solutions for real-world problems using the latest technologies. It aims to provide student developers from across the country, a platform to transform their ideas into prototypes and solve the enigmas. Continuing the legacy of its predecessor, HackNITR, this time comes up with bigger, better and exciting themes.

EXPOSURE

Collective reach of up to 1,00,000 people across the breadth of the globe through the website, social media, promo videos, invitations, brochures thereby building your brand awareness and reaching out to a large audience.

SUPPORT

Support and groom the innovators of tomorrow. Get associated and support some of the great ideas and hacks built by smart minds from schools and universities at this hackathon in their journey to success.

STATISTICS

33
projects

700+
applicants

300+
attendees

FEEDBACK

You can have your own special prize category. If a team uses your product and you love their project, you give them a prize of your choice. This encourages hackers to use your product in their projects and gives you a chance to get feedback from them.

RECRUITING

Get to network and meet amazing hackers from various school and university at one event. Leverage this to get the next innovator and developer for your brand by partnering for recruitments.
